

Arthur Belle Memphis

Dear Belle

Dear Arthur after having
known that there was some good by it
you and the children have so pleased
about getting off late Georgia and about
it when the man reached Cairo the boat
was waiting and there was no time
for them writing down some other appointed
at not getting the Olive Branch she left in
the morning came to hope that we
will overtake her at Memphis I dislike
the idea of having to wait a day or two
at Memphis in that stoned Hotel, I don't
know why it is but I feel very good to
day when the breeze and air I have
my own way I should like to return
to my own dear home and with her
who gives more its chosen I promise
you that I will remain but don't
fear longer in the way and if any good
deeds befalls me I will quit it to my
dear love the rest of the fighting to other
hands. The wind is blowing great guns and
the boom rolls as we would expect that
when we crossed the Ocean is 57

thin were happy days then as we
sat on the front of the vessel
watching the porpoises play - the
waves we must go again one
after the other, when the vessel was all
over the boat has just found that
Pellon the new mode grows and
charms hours around one of the
wonderful bulking that will be made
it a memorable sport for you
all remember and for your wife
and Averaged it to me next month

to visit the place I think you could
get John to live there without our

which he prunes them I can't let
him neglect this my dear baby
